

I believe that the FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections. Since adding my name to this list, we actually answer our phone now, instead of letting the machine pick up. As a working parent, I value MY time at home with my children and the annoying phone calls used to wake them up (calls after 9:00 pm, or early Saturday morning while we all get to sleep in a bit. As stated earlier, this is MY time, and I DO NOT want to have all the annoying calls again.
